SurvivorsUK working online

felt that the services of SurvivorsUK had impacted their ability to cope with the lockdowns and pandemic in general

Service User

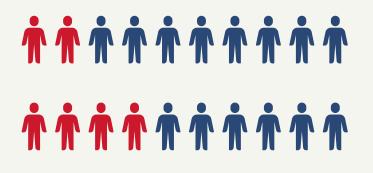

support

55% of respondents received direct or 1:1 support from survivors focused on transitioning to digital support

Pre pandemic 20% of participants in group work reported living outside of London, during the pandemic that rose to 40%

I don't live in London, 45 mins by train and then busses to get to Survivors and I use a wheelchair. These groups have been a total life saver! And being able to access them inside my home has been a blessing,

Service User

6 of the services offered by SurvivorsUK have been started during the pendemic

SurvivorsUK has offered 15 different group based services to users, including forums and social groups as well as core groups. 6 of these were started online

I think this is because emotionally things have been harder during lockdown, and	95%	30%
practically it is easier to access Survivors UK groups.	Accessed more than one service from SurvivorsUK	Accessed 3 or more services from SurvivorsUK
Service User	95% of respondents accessed more than one services from Survivors UK	30% accessed 3 or more of the services on offer from SurvivorsUK
